

BCSA Versatility Program – "VX" Worksheet

Versatility Excellent Requirements: Each Versatility level (V, VX, VCH) is a separate award with separate requirements. Use *only the chart below* to determine your dog's eligibility for the "VX" award. You will receive credit for only the *one* highest title achieved in each activity area. Titles from 3 activity areas are required.

1. To qualify for the "VX", the dog must have earned a "V" award.
2. Circle *the highest* title your dog has in the area of Herding. A herding title of an HS (or equivalent) or higher is required for the "VX" Award.
3. Circle *the highest* title your dog has in *two other columns*.
4. Your dog must have at least an intermediate title (shown in white) in two different areas and an advanced title (shown as shaded) in one other area to qualify for the "VX" Award.

Updated 1/2019; Approved 4/2019

+ For organizations that award titles in "modified" classes (e.g., AKC Preferred or USDAA Performance classes with lowered jump heights or other modifications), titles in the "modified" classes will count as one level less than the corresponding "regular" class (e.g., the CDX-P would still be an Intermediate level title, but at the level of the GN; the UD-P would be an Intermediate, not an Advanced title). Please write in your modified title.

YOU MAY PETITION TO INCLUDE OTHER TITLES NOT LISTED; NO CGC, FDC, COURSING, TRICKS, ACT AGILITY, SAR, PSD, USCSS, CWS, DOCK DIVING, CARTING/PULLING, OR THERAPY TITLES ACCEPTED.
